

Heard from NASA the new landing site has been confirmed exactly where intended The blue circle was the aimed for area so not quite a bulls eye

To find it on a Mars map look for Syrtis Major and its due east in the first big crater

..... Click the link below and you will find the actual footage video of the landing

<https://www.nasa.gov/press-release/nasa-s-mars-perseverance-rover-provides-front-row-seat-to-landing-first-audio>

..... and here are some more stunning images of Mars from the Spirit, Opportunity and Curiosity rovers .....
